

Seed Grinders

Seed Testing Laboratories in Aluttarama, Bataatha, Mahalluppallama, and Peradeniya

Seed Grinders were installed in Seed Testing Laboratories in Aluttarama in Uva Province, Bataatha in Southern Province, Mahalluppallama in North Central Province, and Peradeniya in Central Province. .

The Seed Grinders are for making seeds samples for the moisture content test. The test is conducted according to the ISTA (International Seed Testing Association) procedure and regulations. The new seed grinders will contribute the efficiency and effectiveness of one of the seeds quality test procedure.
